Xu Ning, Zai Labs, Shanghai, China

"I am so happy to talk about Linear as we did have a great experience working with you and your team. At the beginning we were wondering whether Linear will give us priority because we are a small start-up company. In fact, Linear does not only pay great attention to our project but also work hard to establish and maintain great working relationship with Zailab. I have got several calls from CEO and/or PI asking for my feedback regarding how well the project was going on. I think Linear is a great phase I unit with the most professional, responsible, and hard-working team members. We look forward to having more projects to work with Linear in the near future."

“我很高兴谈到Linear，因为我们和你们团队的合
经历非常棒。一开始我们不知道Linear是否会
优先考虑我们，因为我们是一家小型创业公司
。事实上，Linear不仅非常注重我们的项目，
而且努力与再鼎药业建立和保持良好的合作关
系。我接到过CEO和/或PI的几个电话，要求
我对项目进展情况反馈。我认为Linear是一个
很好的1期试验机构，拥有最专业，负责和勤
奋的团队成员。我们期待在不久的将来有更多
的项目与Linear合作。”
