## Linear Clinical Research

### Company Description

Linear is a specialist early phase clinical trial center that focuses on providing high quality, rapid trials for Chinese and US biopharma. Located in a 28-hectare medical complex, Linear excels at complex, phase 1 studies including a dedicated team focusing on first-in-human oncology trials. Linear has a strong focus on technology and clinical trial innovation including being the first site in Australia to go digital with eSource Data Collection. Linear is based in Perth, Western Australia and is the same timezone as China.

### Pipeline and Developments

Over 200 trials in 7 years across every therapeutic area

### What we are looking for:

Looking to support China's leading biopharma with high quality, fast trials supporting global development
