

SPEAKER PROFILE

Tina Soulis
Chief Executive Officer (CEO)
Neuroscience Trials Australia

Tina leads the company strategy and operations for academic and commercial sponsors. Prior to her role with Neuroscience Trials Australia, Tina was the director of clinical development at Acrux Pharma Pty Ltd, a successful Australian biotechnology company. She managed the strategic direction, development, co-ordination and reporting of the company's clinical programs.

Tina is an experienced driver of clinical drug development, particularly in the design, management and implementation of clinical trials and has worked as a clinical researcher and in senior roles within the pharmaceutical and biotechnology industry for over 25 years. Her experience encompasses all stages of drug development in many therapeutic areas and geographical regions.
